

**PRESIDENTIAL**  
**CLIMATE COMMISSION**  
TOWARDS A JUST TRANSITION

# **COMMISSION MATTERS ARISING** **incl. RESOLUTIONS**

*17 November 2023*

# 37 Items

# Outstanding items

Item Title	Description of the action item	Notes/ Comments
Coal phasing-out vs phasing-down #7	A distinction should be made between the concept of phasing out and phasing down coal and fossil fuel. The Commission should be clear on its position on both. (9 June 2023)	The Net-Zero Working Group will consider this and report back at the next Commission meeting.
For Consideration: Inviting Mpumalanga Premier to be a commissioner #8	Mpumalanga Commissioner should be considered – at the very least, the Mpumalanga Province should have representation on the Commission. (9 June 2023)	To be considered at the February 2024 meeting
Invite government departments to future Commission meetings #10	The PCC should invite relevant government departments to future Commission meetings to present their strategies, if any, to drive municipal funding models in the future. (9 June 2023)	Commission to consider how to include this in its work programme at the February 2024 strategic planning session.
